

Ned3^{PRO}

Local robotics
accessible to anyone.

 NIRYO

/ Gain competitiveness and peace of mind

Niryo is a manufacturer, software developer, and integrator of compact collaborative robots. A turnkey solution with a single point of contact for smooth support from A to Z throughout the lifecycle of your automation project.

Assembly

Pick&Place

Packaging

Finishing

Testing and quality control

Machine loading

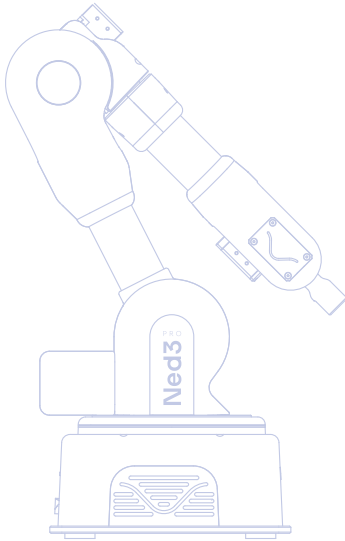

And many other use cases to develop together.

/ A simple, fast, and tailored installation

- Flexible integration that connects seamlessly with your environment without causing damage.
- A compact robot, accessible to everyone, with easy programming and reprogramming.
- A collaborative solution to improve your OEE, optimize your resources, and reduce repetitive strain injuries (RSI).
- Maintenance services provided to ensure your process operates smoothly throughout its lifecycle.

/ Technical Specifications

 Payload	500g (z = 20mm TCP)
 Reach	500mm
 Repeatability ISO 9283	+/-0,3mm
 Weight	7,4kg
 Footprint	200mm x 200mm
 Electrical Supply	AC 100-240 V / 50-60 Hz / 2,5 A
 Materials	Aluminum, ABS plastique, Acier
 Noise	Moins de 70dB

French industrial
company

ROI
6 to 18 months

Only 400 cm²
footprint

I/O PORTS	BACKPANEL	TOOLS	AXES RANGE		SPEEDS	
Digital in	4	1	Axis 1	340°	Axis 1	70°/s
Digital out	3	1	Axis 2	125°	Axis 2	30°/s
Analog in	2	-	Axis 3	160°	Axis 3	43°/s
Analog out	2	-	Axis 4	240°	Axis 4	115°/s
Add-on interface	2	-	Axis 5	220°	Axis 5	95°/s
Gripper interface	-	1	Axis 6	360°	Axis 6	145°/s
Actuator interface	1	-
