

SCOUT MINI

| Speed 20km/h

| Secondary Development

| 4-WD Steering

| Independent Suspension

SCOUT MINI is a member of the SCOUT mobile robot family and inherits the advantages of SCOUT — 4WD, independent suspension, and in-place self-rotation.

AgileX Robotics has introduced camera accessories and panoramic camera accessories which are adapted to SCOUT MINI, so that the SCOUT MINI can meet the application of various kinds of terrains and scenarios with high mobility required, such as petrolling, photographing and exploration.

Dimensions	627mm x 550mm x 252mm	MAX WORK TIME	10KM
Gross Weight	20KG	MAX Speed	20km/h
Gradability	30°	Suspension Form	Independent Suspension
Obstacle-Surmounting Performance	70mm	Protection Level	IP22 Customizable
Payload	10KG	Interface	CAN
	50KG (with Mecanum Wheels)		RS232
